

DAVID GOLTZMAN

Title: Professor,

Institution: Departments of Medicine and of Physiology, McGill University, Montreal, Canada

Memberships: IBMS, ASBMR, Endocrine Society(US), American Association of Physicians, Canadian Society of Endocrinology and Metabolism

Publications: More than 300 manuscripts in a variety of journals including Proceedings of the National Academy of Sciences, Science, and New England Journal of Medicine.

Honors: Prix André Lichtwitz of INSERM (France) for studies in calcified tissues, 1987; Fellowship in the Royal Society of Canada, 1995; Fellowship in the Canadian Academy of Health Sciences, 2005; Gerald D. Aurbach Award and Lecture of the Endocrine Society (US), 2009.

Society Participation: President, American Society for Bone and Mineral Research 1999-00; President, Canadian Society of Endocrinology and Metabolism, 1990-92; President, Canadian Society for Clinical Investigation, 1998-99; Associate Editor, Bone 1989-94; Associate Editor, Journal of Bone and Mineral Research 1994-02

Professional Interests: Studies of the hormonal regulation of mineral and skeletal homeostasis, using biochemical, cell biological, molecular biological, genetic and integrative physiological approaches. Clinical studies of metabolic bone disease, in particular osteoporosis using epidemiologic approaches

Specific Ideas about the Future of the Society and your Role in it:

- Promote the increased participation of young investigators and trainees in IBMS
- Maintain and strengthen the scientific focus of the Society
- Facilitate interaction with other societies with similar or overlapping interests
- Maintain and expand interactions with industry and with other stakeholders
- Expand the educational role of the society at our annual meeting and through web-based efforts
